# Bug reporting

| Field | Description |
|---|---|
| **Bug ID** | BUG-01 |
| **Title** | Restoring an archived student permanently removes them from assigned Groups |
| **Severity** | High |
| **Priority** | High |
| **Environment** | Url: https://staging.ablespace.io/caseload/groups, Date: October 21, 2026 |
| **Browser / Device** | Firefox ,Chrome on Windows 11 |
| **Reproducibility** | Always |
| **Steps to Reproduce** | 1. Log in to AbleSpace and navigate to the Caseload tab.<br>2. Navigate to the Groups sub-tab and create a group containing 2 or more students (e.g., New Group 1 containing Test Student1 and Test Student2).<br>3. Switch back to the Students tab, locate Test Student1, and archive them.<br>4. Restore Test Student1 back to active status.<br>5. Navigate back to the Groups tab and inspect New Group 1. |
| **Expected Result** | Restoring an archived student should restore their existing group associations, making them visible in New Group 1 again. |
| **Actual Result** | The restored student reappears in the active caseload, but is permanently removed from New Group 1. The user must manually re-add the student to the group. |

| Field | Description |
|---|---|
| **Bug ID** | BUG-02 |
| **Title** | Entering leading whitespace in name fields causes profile avatar to render completely blank during real-time entry |
| **Severity** | Low |
| **Priority** | Low |
| **Environment** | Url: https://staging.ablespace.io/caseload, Date: October 21, 2026 |
| **Browser / Device** | Firefox,Chrome on Windows 11 |
| **Reproducibility** | Always |
| **Steps to Reproduce** | 1. Log into AbleSpace and navigate to the Caseload tab.<br>2. Open the Add Student form or Edit Student modal for any student.<br>3. Enter leading space characters before valid letters in the First Name field (e.g., " Student").<br>4. Enter leading space characters before valid letters in the Last Name field (e.g., " Demo1").<br>5. Observe the avatar circle component in real time while typing. |
| **Expected Result** | The avatar circle should extract the student's actual initials in real time while typing, even if spaces are entered before the letters. |
| **Actual Result** | The avatar circle remains completely blank while typing if spaces are entered before the names. It only displays the correct initials after saving the form. |

| Field | Description |
|---|---|
| **Bug ID** | BUG-03 |
| **Title** | Entering whitespace in required name fields suppresses frontend validation error messages |
| **Severity** | Low |
| **Priority** | Low |
| **Environment** | Url: https://staging.ablespace.io/caseload, Date: October 21, 2026 |
| **Browser / Device** | Chrome , Firefox on Windows 11 |
| **Reproducibility** | Always |
| **Steps to Reproduce** | 1. Log into AbleSpace and navigate to the Caseload tab.<br>2. Open the Add Student or Edit Student modal.<br>3. Clear any existing text in both First Name and Last Name fields so required field error messages (First name is required) appear.<br>4. Type a single space character into both fields.<br>5. Observe the required field validation messages below the text inputs. |
| **Expected Result** | The application should recognize whitespace as empty input and keep the required field validation error messages visible. |
| **Actual Result** | Entering whitespace suppresses the required field error text on the frontend UI, even though the backend validation correctly keeps the submit button disabled. |
| **Evidence** | Link:<br>https://drive.google.com/file/d/13N0BrPWQ61V2_cf5k1nk2tGptM7G8QOu/view?usp=sharing |

| Field | Description |
|---|---|
| **Bug ID** | BUG-04 |
| **Title** | Clear All Filters button intermittently fails after a search returns no results |
| **Severity** | Medium |
| **Priority** | Medium |
| **Environment** | Url: https://staging.ablespace.io/caseload, Date: October 22, 2026 |
| **Browser / Device** | Chrome , Firefox on Windows 11 |
| **Reproducibility** | Intermittent |
| **Steps to Reproduce** | 1. Log into AbleSpace and navigate to the Caseload tab<br><br>2. Enter a search query with no matching records (e.g., Student demo 1) in the top search bar.<br><br>3. Verify the empty state view displays *"**No matching results found**"* alongside the **"Clear All Filters"** button.<br><br>4. Click the **"Clear All Filters"** button once.<br><br>5. Observe whether the search value and applied filters are cleared.<br><br>6. Repeat the steps to check whether the issue occurs consistently. |
| **Expected Result** | Clicking Clear All Filters should consistently clear the search value and all applied filters on the first click. |
| **Actual Result** | After a search returns no results, clicking Clear All Filters often fails to clear the search value and filters. The button sometimes works as expected, but the issue occurs intermittently. |

| Field | Description |
|---|---|
| **Bug ID** | BUG-05 |
| **Title** | No message displayed when Groups search returns no matching results |
| **Severity** | Low |
| **Priority** | Low |
| **Environment** | Url: https://staging.ablespace.io/caseload/groups, Date: October 22, 2026 |
| **Browser / Device** | Chrome , Firefox on Windows 11 |
| **Reproducibility** | Consistent |
| **Steps to Reproduce** | 1. Log into AbleSpace and navigate to Groups tab the Caseload tab<br><br>2. Enter a search query with no matching records (e.g., Group123) in the top search bar.<br><br>3. Observe the results section below the headers. |
| **Expected Result** | The results section should display a message such as "**No groups found**" (or "**No matching groups found**") when no groups match the search. |
| **Actual Result** | The results section becomes completely blank without displaying any message. (Note: When no groups exist initially, the page displays a "**No group found, Create group**" message). |
| **Evidence** | Link: https://drive.google.com/file/d/1vgYLSqYmArid8fkN6cvG2J1-gEUkj9UZ/view?usp=sharing |

**Minor Usability Issues:**

- **Usability Issue 1:** Form builder questions marked as "Required" during Daily Log form creation do not display a visible required indicator (e.g., red *) to teachers filling out the form.
- **Usability Issue 2:** The Add Guardian modal lacks a visible required indicator (red *) on the Name field, despite throwing a required validation error upon submission.
